Summary

Frontend developer with nearly **four years** of experience building **dynamic** and **scalable** web applications using **React** and **Next.js**. I'm passionate about creating smooth and intuitive **user experiences**, optimizing **performance**, and writing **clean, maintainable** code. I thrive on solving **complex challenges**, staying up to date with the latest **technologies**, and working closely with **teams** to develop impactful products. Always eager to learn and grow, I strive to refine my skills and contribute to **modern web development**.

Skills

JavaScript TypeScript	React.js	Next.js
Node.js	**SSR SSG ISR**	**Tailwind Bootstrap MUI**
Git Docker	**Html Css Sass**	**Redux ContextAPI**

Education

K. N. Toosi University of Technology   *Tehran, Iran*

B.S. in Computer Engineering   *Sep. 2020 - Aug. 2025*

Work Experience

Acsidmaad   *Tehran, Iran*

FrontEnd Developer   *Jul. 2024 - Mar. 2025*

- **Designed** and **developed** a web-based accounting system using **JavaScript** and **Next.js**, improving financial data management.
- **Optimized** system performance by implementing **server-side rendering (SSR)** and **static site generation (SSG)** features of **Next.js**.
- **Integrated** authentication and authorization mechanisms for secure user access and role-based management.
- **Collaborated** closely with backend developers to design and consume **RESTful APIs** for financial transactions and reporting.

BADALS
FrontEnd Developer

Muscat, Oman
Sep 2023 - Jul 2024

- **Developed** front-end applications using **TypeScript** and **Next.js**, implemented dynamic and interactive UI components, **optimized** performance for better user experience, integrated **GraphQL APIs**, and handled authentication using **Context API**.
- **Integrated** payment gateways such as **Thawani** and **Stripe**, and implemented seamless order tracking with **FedEx** shipment services.
- **Designed** and **implemented** a scalable multi-tenant and multi-language architecture for front-end applications, ensuring adaptability and maintainability.
- **Developed** a visually appealing and responsive **landing page** to enhance user engagement and brand presence.

UltraTrader
FrontEnd Developer

Tehran, Iran
Jul 2021 - May 2023

- **Developed** responsive and scalable web applications using **React.js** and **Tailwind CSS**, ensuring seamless user experiences.
- **Integrated** and **optimized RESTful APIs** for efficient data fetching and state management.
- **Implemented** advanced UI components, dynamic dashboards, and real-time features to enhance user engagement.
- **Utilized Google Analytics** and other tracking tools to monitor user interactions, improve performance, and optimize user experience.

Projects

GAM (Gitlab Assignment Management)
Next.js MUI Docker

- Worked as the **front-end developer** to create a web application for managing student assignments using **Next.js**, **Material-UI (MUI)**, and **Docker**.

TASKIUM (Todo list, Task list, Reminder)
React.js CSS

- As a **front-end developer**, built a task management application with **React.js** and **CSS**, allowing users to create tasks, set reminders, and track their daily progress.

BANG! (A Simple Social Media)
Next.js Tailwind

- Worked as the **front-end developer** for a simple social media platform built using **Next.js** and **Tailwind CSS**. Developed the user interface for posting, sharing, and interacting with content, ensuring a seamless experience.
